

DISCLAIMER

GyroGlove™ is a product designed to provide temporary relief to individuals suffering from chronic hand tremors, such as Parkinson's Disease or Essential Tremor, while wearing the glove.

While many individuals have reported that they experienced a significant reduction in tremors when using the GyroGlove, the GyroGlove does not cure any disease or medical condition and it provides no long term benefit. The GyroGlove

- a) is a U.S. Food & Drug Administration (FDA) Class 1 registered medical device,
- b) is a CE-marked medical device and complies with EU Medical Device Regulation (MDR),
- c) is a Singapore Health Sciences Authority (HSA) registered medical device,
- d) has not yet been registered in the UK with the MHRA,
- e) has not yet received PMDA approval,
- f) has not yet received KFDA approval.

You must not rely on any information provided by us, whether on our website or otherwise, as an alternative to medical advice from your doctor or other professional healthcare provider (HCP). We cannot and do not provide any medical advice. We suggest that you consult with your doctor or HCP before using the GyroGlove.

GyroGlove technology is not meant as a substitute for any medications or other treatments recommended by your doctor or HCP for hand tremors. Therefore, do not discontinue any medications or treatments without first seeking their advice.

You should immediately discontinue using the GyroGlove if you suffer any negative side effects.

The GyroGlove has been through extensive electrical safety and software validation testing, and biocompatibility testing and has passed the following tests at an external lab, including:

- IEC 60601-1:2005
- IEC 62304:2006
- IEC 62366-1:2015
- IEC 60601-1-11:2015
- IEC 60601-1-2:2014
- ISO 10993-10:2010

By continuing with your order, you acknowledge that you acknowledge and agree with the above.
